SKILLS

Blockchain Development

Solidity, Ethereum, Polygon

Web Development

Javascript, React-JS, Vite

Web3 Tools

Hardhat, IPFS, Web3 SDK

Project Tools

Github, Docker, Vercel,
Hyperledger

Languages

Python, C++, Rust

EDUCATION

Chandigarh University

2021-2025

B.E.- CSE with specialization
In Blockchain Technology

B.M.S Bal Mandir School CBSE

2020-2021

Class XII - Science

EXPERIENCE

Internship - Metacrafters - Remote

- Focused on Polygon, Ethereum, and Avalanche ecosystems.
- Front-end integration with blockchain via Web3.js and ethers.js.
- Built cross-chain bridges for seamless token transfers.
- Collaborated in code reviews, troubleshooting, and testing.

PROJECTS

DECENTRALISED MEDICAL RECORD MANAGEMENT SYSTEM

- Secure, decentralized patient data management.
- Smart contracts for privacy and access control.
- IPFS for document storage and cryptographic privacy mechanisms.
- User-friendly interface for healthcare providers.

DECENTRALISED SUPPLYCHAIN MANAGEMENT SYSTEM

- Decentralized real-time shipment tracking.
- Immutable blockchain records for transparency.
- IoT integration for shipment verification.
- Smart contracts for product traceability.

NFT Marketplace

- Decentralized platform for minting, buying, and selling NFTs.
- ERC-721 smart contracts for NFT functionality.
- Portfolio management and asset value calculation.
- WalletConnect integration for multiple wallets.

CERTIFICATIONS

- Professional Certificate Program in Blockchain
IIT Kanpur

2024
