EDUCATION & CERTIFICATIONS

Chandigarh University, Mohali

BE Computer Science and Engineering with specialization in Blockchain Technology

2021 - 2025

CGPA: 8.2

Indian Institute of Technology (IIT), Kanpur

Professional Certificate Program in Blockchain

Jun 2024 – Nov 2024

PROFESSIONAL EXPERIENCE

Monkhub Innovations, Gurugram

Tech Consultant & Project Management Intern

Jan 2025 – Present

- Coordinated delivery of tech solutions and contributed to ideation.
- Supported innovation-focused planning and task execution across teams.
- Managed project workflows to ensure timely milestone completion

India Property Dekho, Gurugram

Technical Associate Intern (Design & Development)

Jul 2024 – Dec 2024

- Contributed to interface development and user experience improvements.
- Supported the implementation of visual and interactive features across the platform.

Metacrafters ,Remote

Apprentice – Web3 Development

June 2023 - August 2023

- Built mini DApps and smart contracts on Ethereum and Solana.
- Completed blockchain training modules and contributed to testnet projects.

PROJECTS

Decentralized Medical Record Management System- *Designed a secure, user-centric platform for managing patient records.*

- Used blockchain and IPFS for immutable, encrypted data storage.
- Implemented smart contracts for role-based access control.
- Built a simplified UI for healthcare providers using modern frontend frameworks.

Decentralized Supply Chain Tracking System- *Developed a transparent tracking solution for logistics and inventory management.*

- Enabled real-time shipment tracking with immutable blockchain logs.
- Automated product verification and traceability via smart contracts.
- Created an intuitive dashboard for monitoring supply chain activities.

Decentralized NFT Marketplace- *Built a full-stack platform for NFT creation, trading, and portfolio management.*

- Deployed ERC-721 smart contracts for minting and ownership.
- Integrated WalletConnect for secure, multi-wallet transactions.
- Delivered a responsive frontend for seamless user interaction and asset tracking.

TECHNICAL SKILLS

Languages: Python, Javascript, Solidity

Frontend: React.js, Tailwind CSS, Python-Streamlit

Backend: Node.js, pyhton

Database: MySQL,Blockchain

Tools: Git, Docker, VS Code, Vercel, Hardhat
